

Autumn Magic

WHERE GARDEN DREAMS TAKE ROOT

HELLO GARDEN FRIENDS!

What a joy to connect with you as the leaves change and the air turns crisp! There's something magical about autumn gardening - that perfect window to prepare, plant, and potter about in cooler temperatures. Remember, at Sunkist,

Gardening Starts Here!

WHAT TO PLANT NOW

Autumn is perfect for cool-season veggies like spinach, kale, and Swiss chard. Don't miss planting carrots, beetroot, and radishes this weekend! For herb lovers, coriander thrives now instead of bolting as it does in summer heat. Consider starting a windowsill herb garden for fresh flavors all season.

FLOWERS FOR AUTUMN COLOUR

Keep your garden vibrant with chrysanthemums and dahlias. For reliable color in cooler months, pansies and violas are perfect! Plant sweet peas now for winter and spring blooms, and sow calendula for cheerful orange and yellow winter flowers. Don't forget spring-flowering bulbs like daffodils and freesias.

QUICK GARDEN TASKS

Give roses light pruning now but save major cuts for winter. Divide overcrowded perennials and bulbs like agapanthus to give them space to flourish next season. Protect tender plants from early frost and mulch garden beds to lock in moisture. Apply slow-release fertiliser to feed your garden through winter.

FROM OUR GARDEN TO YOURS

We love seeing your autumn gardens! Our garden center is fully stocked with all your autumn gardening needs - pop in for a chat or expert advice.

As the leaves fall and nature prepares for rest, there's comfort in working with the rhythm of the seasons. Your hands in the soil now are creating next season's beauty - what a wonderful gift to your future self!
